CONTINUING EDUCATION SEMINARS

The Center for Government Services (CGS) at Rutgers University assists the Division of Codes and Standards in the New Jersey Department of Community Affairs in offering more than 325 seminars required by law for Construction Code Enforcement Officials, Technical Assistants, and Multiple Dwelling Inspectors.

The mission of the Continuing Education Program is to further the professional development of code enforcement personnel by providing quality educational offerings through continuing education programs for licensed inspectors and their support staff. Together, our state and local governments are committed to protecting the health, safety, and welfare of all people throughout our communities to ensure that New Jersey continues to be a safe and desirable place to live.

HOW TO USE THIS BROCHURE

For your convenience, we have included a grid of the seminars organized by the course number. It indicates duplicate and reciprocal credits, as well as if the seminar is available online. Credit is applicable only to those areas marked in the grid or noted in the course description. If you are unsure of the credit available and its applicability to your license, please confirm with the DCA prior to registering. The table also contains the page number where you can find full seminar descriptions along with dates and locations. The course descriptions are organized alphabetically by the seminar name.

Facilities Information	41

REGISTRATION INFORMATION

If your code enforcement license expires on January 31, 2018, please keep in mind that the fall semester runs from September through December, and you must complete your continuing education requirements during this time period. All continuing education requirements must be met within the regularly scheduled program.

Make sure you are selecting seminars that meet CEU requirements for your license.

Seminar Limits: Unless your license expires on January 31, 2018, you will be limited to either two seminars or one per subcode in which you hold a license (whichever is greater). This will give everyone an equal opportunity to register. If you are interested in registering for additional seminars, you should call one week before the seminar start date.

Unlicensed Registrants: Architects, engineers, builders, and other unlicensed interested parties may attend seminars for a fee of \$125 for one-day seminars and \$250 for two-day seminars. Those interested parties who wish to participate may call anytime after the third week of registration.

Registration Procedure:

1. Select a first and second choice from the seminars offered; in case your first choice is filled, you can register for your alternate selection. The DCA staff person responding to your email or phone call can answer questions about the fulfillment of your education requirement for the current licensing cycle.

2. Email the DCA Education Unit at education.unit@dca.nj.gov. Be sure you indicate your full name, your code enforcement license number, the course code, location and date of each seminar you have selected. Please note first and second choices. You will receive an emailed confirmation of your registration.

3. You may also call the DCA Education Unit at 609-984-7820 between the hours of 9:00 AM and 4:00 PM. Be sure to have the following information ready: your code enforcement license number, the course code, location and date of each seminar you have selected.

Confirmation: Confirmations are mailed approximately two weeks before the date of each seminar. If you have not received the confirmation one week prior to the seminar, call the Education Unit at 609-984-7820 to ensure that your name is on the roster. Walk-in registrations are not permitted.

Duplicate Credit: You have the option of receiving duplicate credit for certain seminars designated with a D prefix. At sign in, you will be asked to indicate whether or not you wish to receive duplicate credit.

Reciprocal Credit: *The Division of Fire Safety* will award reciprocal credit for those seminars marked with . In order to receive reciprocal credit, you must provide your Division of Fire Safety certification number at sign in. *The Board of Electrical Contractors* will award reciprocal credit for those seminars marked with . For some electrical seminars, the approval of the Board of Electrical Contractors is currently pending. Online GoToTraining electrical seminars are not approved by the Board for reciprocal credit. In order to receive reciprocal credit, you must provide a picture ID and your current contractor's license at sign in.

Online Seminars: Seminars marked with  are available online. Online GoToTraining seminars are identical in content and timing to our in person training programs (5 hours, 0.5 CEUs). Registration for the full day seminars will begin at 8:00 AM; the seminar instruction will begin at 8:30 AM and conclude no later than 4:00 PM. Evening sessions are scheduled between 6:30 PM and 9:00 PM. Be sure that you can allot that entire period of time to attend. **You MUST log into GoToTraining at least ½ hour prior to start.**

All seminars are conducted entirely over the internet. **You MUST have operating microphone and speakers** on your computer to receive credit (no telephone participants), as you will not only need the speakers to hear the presentation, but also will have the opportunity to ask questions of the instructor and have them answered live as with any of our other seminars. To register for the online seminars and for more information, please visit: <http://tiny.cc/UCOnline>

Special Inspector Certifications: Certified special inspectors should register only for specific seminars meeting the continuing education requirements for their area of certification. Courses applicable to and counting towards renewal of a Structural Welding and/or Steel Bolting special inspector certification are identified by “**SS**” as noted in the grid. Likewise, Structural Concrete and Masonry special inspector seminars can be identified by “**SC**,” EIFS special inspector courses will be noted as “**SE**,” and, finally, Spray-Applied Fireproofing special inspector courses are denoted by “**SF**” in the grid. They are also specifically identified in the course descriptions.

Cancellation Policy: If you are unable to attend a seminar for which you registered, you must call the Education Unit to cancel your reservation as soon as possible. Failure to inform of your cancellation may result in future registrations being restricted.

Digital/Electronic Devices: The use of cell phones is disruptive in seminars. Digital/electronic devices are permitted only if you are using them for class work.

Seminar Times: All seminars begin at 8:30 a.m. and conclude by 4 p.m. You must arrive before 9 a.m. in order to be admitted to the seminar. Students who miss a substantial portion of a seminar or who leave early, for any reason, will not receive credit. Please bring your seminar confirmation card and UCC/HMD licenses with you to the seminar.

Dress Code: All seminar participants should follow a business-casual dress code. Many of the conference facilities will not allow students wearing shorts and flip-flops on their premises. Violating a facility dress code may be cause for dismissal from the course.

ICC Preferred Provider Program: The DCA/RU educational program is now an approved preferred provider with the International Code Council (ICC). The goal of the program is to support our licensees and other interested parties who also maintain ICC certifications. The use of ICC or Preferred Provider training is required as a condition of all ICC certification renewals. Our participation in the program will mean that our courses will be approved to also meet the ICC certification renewal requirements. Program participants need not do anything different: our seminar completion certificates will include our provider number (1091) as well as the ICC course number associated with the approval. If you have any questions regarding the Preferred Provider Program, please visit iccsafe.org.

Directions: For directions to the seminars, please visit www.cgs.rutgers.edu/codeenforcement or <http://tiny.cc/dca-directions>

Please note that GPS and online maps might provide inaccurate directions. We strongly recommend that you visit one of the links above and follow the provided directions.

FALL 2017 SEMINARS**E281** **2014 NATIONAL ELECTRICAL CODE UPDATE AND ANALYSIS OF CHANGES AND REVIEW TO ARTICLES 500-516 (CLASSIFIED) HAZARDOUS LOCATIONS AND WHAT TO LOOK FOR IN AN INSPECTION****Instructor: Stephen Norako***Credit: electrical*

This seminar provides the inspectors with a clear understanding of NEC 2014, including updates, changes and providing useful tools to use back on the job. Articles 500-516 significant changes include reorganization, wiring methods, process instrument and sealing requirements. To assist the inspector, this seminar covers the administration and enforcement activities as per N.J.A.C. 5:23 Electrical Subcode (a) (1) by reviewing NEC Articles 500-516 changes, identifying key installation pitfalls common to these locations. 0.5 CEU

Fri, Oct 27 - Best Western Plus Executive Inn, Fairfield

Wed, Dec 13 - RWJ Conference Center, Hamilton

D248 **2015 IBC ESSENTIALS****Instructor: James Quigley, International Code Council***Credit: building, fire protection*

This seminar examines basic concepts of the 2015 International Building Code. It provides a basis for the correct use and application of the code and builds on an understanding of intent of the code through practice with real-world examples. 0.5 CEU

Thurs, Oct 12 - Rutgers Continuing Education Center at Atrium, Somerset

Wed, Nov 01 - Tuscany Resort, Tuscany House Hotel, Egg Harbor City

D280 **2015 IBC PENETRATIONS, JOINTS AND DAMPERS****Instructor: James Quigley, International Code Council***Credit: building, fire protection*

This course discusses the details and requirements for dampers, penetration firestops and joint systems. The topics include the concepts, testing, installation, and citations within the code. The IBC uses fire resistive rated assemblies to protect the building's structural system, to separate adjacent spaces within the building that are not compatible, or to separate and protect adjacent buildings. In addition, the code uses smoke resistant assemblies to limit the spread of smoke within a building and the dangers it would create for the occupants. Any opening or penetration within the rated assemblies has the potential to reduce the assembly's performance. This course focuses on the protection provided by dampers, penetration firestops and joint systems to ensure the building and occupants are safe. 0.5 CEU

Thurs, Nov 30 - Fire-Rescue Station 221, Evesham

Fri, Dec 15 - Holiday Inn, Hasbrouck Heights

D294 **2015 ICC COMMERCIAL COOKING SYSTEMS****Instructor: James Quigley, International Code Council***Credit: building, fire protection, mechanical*

This seminar addresses the applicable requirements in the 2015 International Mechanical Code, 2015 International Fire Code, 2015 International Fuel Gas Code, 2015 International Building Code and 2015 International Energy Conservation Code as applicable to commercial cooking systems. It emphasizes commercial hood and duct construction, when commercial hoods are required, what type of hood is required for different cooking appliances, and air movement requirements. 0.5 CEU

Thurs, Nov 09 - The Inn at Lambertville Station, Lambertville

Tues, Nov 14 - Grand Hotel, Cape May

Thurs, Dec 21 - Kean University, North Avenue Academic Building, Union

D295 🔥**2015 IFGC DESIGN, INSTALLATION AND INSPECTION PRINCIPLES****Instructor: James Quigley, International Code Council***Credit: building, fire protection, plumbing, mechanical*

This seminar discusses critical concepts of the 2015 International Fuel Gas Code. It provides a basis for the correct use of the code in the design, plan review, inspection, and analysis of projects. In addition, students will gain a clear understanding of the requirements identified by basic code provisions, tables and topics. Seminar information allows code users to apply the code in clear-cut situations and builds their understanding of the intent of the code when asked to make code compliance decisions. 0.5 CEU

Wed, Oct 25 - Ocean Cty Fire and EMS Training Center,
Waretown

Wed, Dec 20 - Kean University, North Avenue Academic
Building, Union

D306 🔥**2015 IMC DESIGN, INSTALLATION AND INSPECTION PRINCIPLES****Instructor: James Quigley, International Code Council***Credit: building, fire protection, plumbing, mechanical*

This seminar highlights key provisions of the 2015 International Mechanical Code and provides practice in applying key requirements. It reinforces learning by supplying immediate feedback and clarification. It walks participants through the content outline of the code book and describes key sections. 0.5 CEU

Wed, Oct 18 - Foundation for Educational Administration,
Monroe

Thurs, Nov 02 - Camden Cty Educational Services
Commission, Clementon

Tues, Dec 05 - NJ Sports & Exposition Authority, Environment
Center, Lyndhurst

D291 🔥**2015 IMC INSTALLATION AND VENTING REQUIREMENTS FOR CLOTHES DRYERS AND CHIMNEYS****Instructor: IAPMO***Credit: building, fire protection, plumbing, mechanical*

This seminar focuses on the International Mechanical Code provisions concerning the proper installation and venting of chimneys and clothes dryers. Along with the general provisions for these installations, this seminar covers venting specifications, sizing of venting systems, construction, ducts, and how to properly use the numerous tables. Upon completion of this seminar, participants will be able to locate and enforce the code provisions pertaining to chimneys and clothes dryers, as well as describe the basic concepts and requirements for their proper installation and venting. 0.5 CEU

Wed, Oct 11 - Fire-Rescue Station 221, Evesham

Thurs, Nov 02 - Holiday Inn, Clark

Thurs, Dec 14 - RWJ Conference Center, Hamilton

D281 🔥**2015 IRC COMPLIANCE - NJ EDITION****Instructor: Dennis Pino, Nick Fabiano***Credit: building, fire protection*

This seminar allows participants to experience a new interactive approach to IRC instruction with real-life code enforcement scenarios, UCC integration, high quality graphics and custom agency driven icons. This seminar helps to bridge the gap between the 2009 and 2015 New Jersey IRC code editions. In addition, detailed subcode responsibilities regarding plan review and inspection are provided for every code section presented. Students will review key changes, commentary, referenced standards and much more. 0.5 CEU

Fri, Oct 13 - Fire-Rescue Station 221, Evesham

Fri, Oct 20 - Holiday Inn, Hasbrouck Heights

D252 🔥**2015 IRC ESSENTIALS****Instructor: James Quigley, International Code Council***Credit: building, fire protection*

This seminar examines basic concepts of the 2015 International Residential Code. It provides a basis for the correct use and application of the code and builds on an understanding of the code's intent through practice with real-world examples. 0.5 CEU

Tues, Oct 24 - Ocean Cty Fire and EMS Training Center,
Waretown

Thurs, Dec 14 - Holiday Inn, Hasbrouck Heights

B756**2015 IRC WOOD WALL BRACING REQUIREMENTS****Instructor: James Quigley, International Code Council***Credit: building*

This seminar provides a comprehensive explanation of the 2015 International Residential Code® (IRC®) bracing requirements. The seminar focuses on basic requirements and clarifies the application of wall bracing provisions in the IRC wall bracing Sections R602.10 thru R602.12. Participants will apply the provisions of the 2015 IRC to problems involving bracing requirements for wood-framed residential structures in their region. 0.5 CEU

Fri, Oct 13 - Rutgers Continuing Education Center at Atrium,
Somerset

Tues, Oct 31 - Tuscany Resort, Tuscany House Hotel,
Egg Harbor City

P204**2015 NATIONAL STANDARD PLUMBING CODE AND ICC CODE CHANGE UPDATE FOR PLUMBING CODE OFFICIALS****Instructor: Fritz Reuss***Credit: plumbing*

All code changes to the 2015 National Standard Plumbing Code as compared to the 2009 and 2012 NSPC are reviewed at this seminar. In addition, applicable code changes within the 2015 International Mechanical Code and International Fuel Gas Code, for which the Plumbing Code Official is responsible, are also evaluated. To help students better understand the rationale behind the change, this seminar discusses the inherent benefit of the changes and manufacturers' compliance literature. 0.5 CEU

Wed, Sept 27 - Atlantic Cape Community College,
Rutgers Building Q, Mays Landing

Thurs, Nov 02 - Morris Cty Public Safety Training Academy,
Parsippany

D157**ADVANCED BARRIER FREE 2017****Instructor: Jack Boekhout Consulting, LLC***Credit: administrative, building*

Students will be made aware of some of the fine points of Barrier Free compliance. Students will have an opportunity to experience the problems associated with the operation of a wheelchair and crutches. The students will test the changes in level, maneuvering problems and compare them to the code text. Active participation in a wheelchair workshop is expected from all participants. 0.5 CEU

Wed, Oct 25 - Somerset Cty Emergency Services Training
Academy, Hillsborough

Wed, Dec 06 - Tuscany Resort, Tuscany House Hotel,
Egg Harbor City

D178**BACKFLOW PROTECTION, ANTI-SCALD PROTECTION AND ENERGY CODE A-Z****Instructor: Fritz Reuss***Credit: plumbing, boiler pressure vessel, refrigeration*

Backflow prevention and anti-scald compliance requirements are analyzed regarding code and manufacturers' installation requirements. Applications, manufacturers' installation criteria, listing and hazard prevention are discussed for code standard compliance throughout the seminar. Energy code requirements for the Plumbing Officials are also reviewed, including examples of compliance and non-compliance. 0.5 CEU

Thurs, Nov 16 - Fairbridge Inn, East Hanover

Tues, Dec 12 - Fire-Rescue Station 221, Evesham

D009**BARRIER FREE SUBCODE 2017****Instructor: Jack Boekhout Consulting, LLC***Credit: administrative, building*

ONE TIME mandatory requirement for Building Inspectors. This course reviews each of the amendments to the NJ Barrier Free Subcode, including the revisions to access requirements for multi-family residences and the C.O.A.H. (now known as Low and Moderate Income Housing) requirements for townhouses. Provisions of the revised Barrier Free Subcode that provide compliance with Federal Americans with Disabilities Act regulations are also covered. Emphasis is placed on ensuring that code officials understand where their enforcement authority lies and also on showing where in Subchapter 7, IBC Chapter 11 and ICC/ANSI A117.1 standard the provisions and requirements of the Barrier Free Subcode can be found, including the Low and Moderate Income Housing rules. 0.5 CEU

Tues, Nov 21 - Cumberland Cty College Conference and
Events Center, Vineland

Fri, Dec 01 - Rutgers Continuing Education Center at Atrium,
Somerset

Mon, Dec 11 - Online - Go To Training

B747
BUILDING INSPECTOR WORKSHOP - A COLLECTION OF HELPFUL TOOLS

Instructor: Jack Boekhout Consulting, LLC

Credit: building

A building inspector's job encompasses a variety of duties, including plan review, inspection and working with the public, to name just a few. This course is designed to help the building inspector save time by using available tools, such as checklists, charts and high-tech equipment. In addition, participants are encouraged to share best practice ideas for mutual benefit. 0.5 CEU

Fri, Sept 29 - Holiday Inn, Clinton

Thurs, Nov 16 - Rutgers EcoComplex, Bordentown

D283
CHANGES TO DETERMINING HEIGHT AND AREA USING THE IBC 2015

Instructor: Jack Boekhout Consulting, LLC

Credit: building, fire protection

The method for determining allowable building size has changed extensively in the 2015 codes. Table 503 that was used previously has been replaced. Students will review the requirements for all Use Groups and Construction Types. In addition, students will discuss how to adjust the allowable size of structures using all of the information from tables 504, 506, 601 and 602 with adjustments available. Practice problems and practical solutions are also offered at this seminar. 0.5 CEU

Wed, Oct 18 - Holiday Inn, Hasbrouck Heights

Tues, Dec 05 - Tuscany Resort, Tuscany House Hotel,
Egg Harbor City

E271
CONDUCTOR SIZING AND PROTECTION FOR ELECTRICAL INSTALLATIONS

Instructor: Constantinos Papademas LLC

Credit: electrical

The National Electrical Code requirements for conductor sizing and overcurrent protection can be a confusing and complex topic. A variety of code rules that modify the general requirements make the selection of a circuit conductor and over-current protection device challenging. This seminar provides steps and examples to understand the basic rules of conductor sizing and protection. Emphasis is placed on describing the types of conductor and overcurrent devices and their implementation in electrical systems. 0.5 CEU

Wed, Sept 27 - Holiday Inn, Clinton

Tues, Dec 12 - Atlantic Cape Community College,
Rutgers Building Q, Mays Landing

Fri, Dec 22 - Rutgers EcoComplex, Bordentown

F572
DESIGN OF SPRINKLER SYSTEMS FOR STORAGE OCCUPANCIES

Instructor: Fire Smarts, LLC

Credit: fire protection

Storage is one of the most challenging fire protection scenarios. This seminar is based on the 2013 edition of NFPA 13 Standard for the Installation of Sprinkler Systems and reviews the key decision points to apply an approved design option for fire sprinkler use with storage applications. This seminar follows the path that an engineer, designer, or AHJ uses when evaluating storage protection. The foundational questions of "What is being stored?", "How is it stored?"; and "How high is it stored?" are reviewed in detail. Once these questions are answered, the various design approaches are considered to determine the best solution for the particular scenario. 0.5 CEU

Thurs, Oct 19 - Foundation for Educational Administration,
Monroe

D288
FIRE ALARM DOCUMENTATION AND PLAN REVIEW

Instructor: Fire Smarts, LLC

Credit: fire protection, electrical

This seminar discusses the fire alarm code submission requirements to conduct a proper plan review. The students will review the requirements and documentation that is specifically identified in the code. One change in the Fire Alarm and Signaling Systems Code is the development of a chapter specific to documentation. This session reviews the specifics of this chapter in an easy to understand format. After discussing basic spacing rules, students will conduct a mock plan review exercise. It is recommended that students bring the required code books as a reference (UCC, NEC 2014 and NFPA 72, 2013). 0.5 CEU

Wed, Oct 11 - Best Western Plus Executive Inn, Fairfield

Tues, Dec 19 - Ocean Cty Fire and EMS Training Center,
Waretown

D286  **FIRE ALARM INTERCONNECTIVITY TO THE FIRE SPRINKLER SYSTEM****Instructor: Fire Smarts, LLC***Credit: fire protection, electrical*

This course covers the NFPA standards requiring water-based fire protection systems to be tested and inspected as per both the NFPA 25 and NFPA 72. This course discusses the monitoring requirements for sprinkler systems and the supervisory signals that need to be captured. This program also addresses dedicated function fire alarm systems that are used exclusively for sprinkler monitoring and fire alarm communication protocols as related to water-based fire protection systems. 0.5 CEU

Tues, Sept 26 - RWJ Conference Center, Hamilton

Tues, Dec 12 - Middlesex Cty Fire Academy, Sayreville

D284  **FIRE ALARM SYSTEM DESIGN - 2 DAY****Instructor: Fire Smarts, LLC***Credit: fire protection, electrical*

This seminar reviews fire alarm system devices and components, as well as types of fire alarm systems. Students will determine which codes define the requirements for a fire alarm system and how they interrelate. The students will apply their new knowledge while conducting two exercises to determine spacing and proper coverage for both initiating and notification devices. And since no job is complete without the paperwork, this session reviews the documentation requirements for fire alarm system acceptance testing and when reacceptance testing is required. It is recommended that students bring the required code books as a reference (UCC, NEC 2014 and NFPA 72, 2013). 1.0 CEU

Tues, Oct 17 & Wed, Oct 18 - Holiday Inn, Clark

D198 **FIRE PROOFING INSPECTION 2017****Instructor: Sinisi Associates LLC***Credit: building, fire protection, special inspector (spray-applied fireproofing)*

This seminar educates participants on fire proofing inspection and is designed for the municipal, state and special inspectors responsible for fire proofing inspection of steel, walls, floors and assemblies. Generator and electrical room protection for larger buildings is also reviewed for fire proofing requirements. This seminar, delivered by an industrial engineer and an inspector, includes discussions on critical facility safety features where fire proofing is required. Fire, smoke, vibration, noise and heat transmission, inspection techniques and

methods and inspection of all types of fire rated construction and fire proofing assemblies are reviewed. NJ Building Code, thickness, density, adhesion and cohesion are reviewed as requirements of inspection. NFPA, ASTM and Best Practices for Inspection are also presented and reviewed. 0.5 CEU

Fri, Nov 03 - Holiday Inn, Clark

D305   **FIRE STOP INSPECTION 2017****Instructor: Sinisi Associates LLC***Credit: building, fire protection, electrical*

This seminar, designed for the municipal, state and special inspectors in New Jersey, provides information on fire stop inspection and the new standards for inspection. Topics include fire barriers and the importance of fire stop during planning, construction and the useful life span of a building; penetration inspection and UL Tested System information for mechanical, electrical, sprinklers and plumbing installations; and fire and smoke rated barriers in all types of construction such as condominiums, multiple dwellings, electrical room protection and typical utility penetrations. This seminar also reviews fire stop as it is applied in the NJ Building Code. NFPA, ASTM and Best Practices for Inspection are also presented and reviewed. Online GoToTraining electrical seminars are not approved by the Board for reciprocal credit. 0.5 CEU

Thurs, Oct 05 - Fairbridge Inn, East Hanover

D300 **FIRE SUBCODE - 2015 IRC RESPONSIBILITIES****Instructor: Dennis Pino, Nick Fabiano, Patrick Reardon***Credit: building, fire protection*

There are well over 100 relevant code sections in the adopted 2015 IRC with specific enforcement responsibilities assigned to the Fire Subcode Official. In addition, there are over 150 references to applicable standards. This seminar presents the significant codes and key code changes. Topics include formal code commentary and a complete overview of R-5 plan review and inspection responsibilities produced for the NJ Fire Subcode Official that include high quality custom graphics with detailed focus on applicable UCC rules and regulations. 0.5 CEU

Fri, Oct 06 - Middlesex Cty Fire Academy, Sayreville

Thurs, Nov 09 - Monmouth Cty Fire Academy, Freehold

D304 🔥**FIRE/SMOKE DAMPER INSPECTION IN HVACR SYSTEMS****Instructor: Sheet Metal Workers Local 22, David Castner***Credit: building, fire protection, mechanical*

The purpose of this seminar is to provide the considerations for installing, inspecting, and maintaining fire dampers, smoke dampers, and combination fire/smoke dampers and ceiling dampers in HVAC systems in new and existing buildings. Also, the relevant building code requirements in the context of effective operation for property protection, life safety requirements, and building design and performance are covered. 0.5 CEU

Wed, Oct 04 - Fairbridge Inn, East Hanover

Wed, Nov 22 - Cumberland Cty College Conference and Events Center, Vineland

D297 🔥**FIREFIGHTER'S EMERGENCY OPERATIONS****Instructor: NAESA***Credit: fire protection, elevator, hotel/multiple dwelling*

This seminar presents a detailed discussion of one of the more complex sections of ASME A17.1-2013/CSA B44-13, Section 2.27.3-2.27.9. Attendees will gain a better understanding of these requirements and learn how best to recognize proper operation of FEO. A discussion of how ASME A17.2-2012 can be used to facilitate inspection of FEO is also part of this seminar. 0.5 CEU

Wed, Oct 18 - Cumberland Cty College Conference and Events Center, Vineland

Thurs, Dec 07 - NJ Sports & Exposition Authority, Environment Center, Lyndhurst

D190 🔥**FIRESTOPPING AND DRAFTSTOPPING****Instructor: Hilti Co., Inc***Credit: building, fire protection, hotel/multiple dwelling*

Enforcement of building codes related to firestopping construction joints, penetrations, and curtain walls is considerably more complex than ever. Inspecting construction phases for IBC/NFPA Life Safety/Fire Codes is critical and is currently one of the most difficult challenges. High-rises, hotels, hospitals, and college dormitories are constantly under construction and with the complexities, innumerable variations in construction practices, and tight scheduling, the GC's and subcontractors often struggle to maintain compliance in firestopping and draftstopping. This seminar covers three specific firestopping inspection points: construction joints, penetrations, and curtain walls. The hands-on portion of the seminar will help participants learn what to expect when walking job sites, how to identify actual areas of concern or noncompliance, including healthcare construction. 0.5 CEU

Wed, Nov 15 - Fairbridge Inn, East Hanover

Wed, Dec 13 - Atlantic Cape Community College, Rutgers Building Q, Mays Landing

A607 🔥**FIVE STAR LEADERSHIP TRAINING****Instructor: Richard Perlman***Credit: administrative*

Organizations rise and fall based on leadership. This seminar discusses new and time tested leadership techniques that can revolutionize a leader's influence. Topics include team building, vision casting, communication, priority setting and decision making. Attendees will be inspired and challenged through lecture, video and stimulating discussion. Seminar results will produce years of leadership success in dealing with staff, professionals and the general public. 0.5 CEU

Fri, Oct 27 - Ocean Cty Fire and EMS Training Center, Waretown

Fri, Dec 15 - Middlesex Cty Fire Academy, Sayreville

B766**FRAMING CHECKLIST - 2015 IRC COMPLIANCE****Instructor: Dennis Pino, Nick Fabiano, Dennis Bott, Boise Cascade***Credit: building*

This interactive seminar includes a step-by-step detailed review of the 2015 IRC codes, code change, commentary, standards and applicable UCC regulations through the use and review of the Framing Checklist requirements. Specific focus of manufactured wood products is also provided in great detail through a presentation by known industry representatives. Custom graphics and color enhanced code illustrations, including exclusive icons, bring the 2015 IRC Codes and Framing Checklist to life unlike any other compilation. Developed by Code Officials for Code Officials; a unique, interactive and challenging learning experience is provided from the sill plate to the ridge beam. 0.5 CEU

Fri, Dec 08 - Clarion, Toms River

B290
FRAMING INSPECTIONS - USING A CHECKLIST**Instructor: James Foran***Credit: building*

ONE TIME mandatory requirement for Building Inspectors. This seminar provides the information necessary for a code enforcer to properly understand and use the Framing Checklist prepared by DCA. The student will learn proper techniques for framing with traditional and engineered wood products. Standards referenced in the UCC are reviewed and their application is illustrated. Special attention is given to engineered wood products. Particular areas of emphasis include wood installation requirements unique to wood I-Joists as well as proper installation and bracing of trusses in floors and roofs. 0.5 CEU

Fri, Oct 06 - Atlantic Cape Community College,
Rutgers Building Q, Mays Landing

Wed, Dec 13 - Middlesex Cty Fire Academy, Sayreville

D235
H USE GROUP BUILDINGS USING THE 2015 NJ IBC**Instructor: Jack Boekhout Consulting, LLC***Credit: building, fire protection*

This seminar will address the differences between buildings of other use groups and the H use group. Students will discuss the exempt quantities of hazardous materials that are allowed in other use groups and when it is necessary to classify the building as an H use group building. Topics include grade plane, control areas on various story levels, and H use group specific code requirements such as exit access travel distance, exits, fire separation and ratings. H uses in unlimited area buildings are also outlined. 0.5 CEU

Wed, Oct 04 - Atlantic Cape Community College,

D290 🔥**INSPECTING GREASE DUCT WRAP****Instructor: Halpert Life Safety Consulting, Sharron Halpert***Credit: building, fire protection, mechanical*

From 2006 to 2010, the major cause of fires in eating and drinking establishments was cooking equipment. This seminar discusses grease duct wrap installation and inspection. In addition, the following topics are covered: the requirements of various manufacturers, ducts with angles or branches, encapsulating items, penetrations, threaded rods, strut or hangers, how to properly install applications with limited access, firestopping grease ducts through rated walls and more. This hands-on seminar helps inspectors understand how to install the material, identify mistakes made by an installer, as well as explain how the materials are tested and how they fail.

A457 
MUNICIPAL PROCEDURES - UNDERSTANDING THE PROCESS

Instructor: Richard Osworth

Credit: administrative

Local officials are called upon to organize their offices based on uniform procedures and practices. The Municipal Procedures Manual is a supporting document that presents uniform procedures and practices. The manual includes a visual display of the construction process through the technique of flow charting. In the belief that a picture is worth a thousand words, the flow charting concept is presented as both a visual display of procedures and as an effective communication tool. The topics focus on the construction permit/certificate processes and discuss ongoing inspection requirements for hazardous equipment. A hands on exercise builds a better understanding of how tasks can flow through specific activities and decision making responsibilities. 0.5 CEU

Tues, Oct 31 - Morris Cty Public Safety Training Academy,
Parsippany

Thurs, Dec 07 - Tuscany Resort, Tuscany House Hotel,

D265 
NAVIGATING THE UCC REHAB SUBCODE

Instructor: John Daniels

Credit: administrative, building

This seminar reviews all types of rehab work and is designed to enhance the participant's existing knowledge and understanding of the rehab subcode. Participants will use actual projects to develop a methodical approach to navigating the rehab subcode and ensuring proper enforcement. The sections of the referenced codes that are applicable are also discussed. Participants should bring a current UCC administrative book to the seminar. 0.5 CEU

Tues, Oct 24 - Best Western Plus Executive Inn, Fairfield

Thurs, Dec 14 - Atlantic Cape Community College,
Rutgers Building Q, Mays Landing

E280 
NEC ARTICLE 680 - SWIMMING POOLS, FOUNTAINS AND SIMILAR INSTALLATIONS

Instructor: Tom Pernal Electrical Seminars, LLC

Credit: electrical

This seminar provides inspectors, design professionals and installers with the knowledge to design, perform plan review, and inspect pools, spas and hot tubs. Applicable code information is presented to course participants through the use of an IAEI produced visual presentation and clarification/explanation of NEC language. Any UCC adoptions/revisions to the model code are introduced as needed. Questions, comments, and scenarios regarding application of the NEC for Code compliance are addressed. 0.5 CEU

Tues, Oct 24 - Atlantic Cape Community College,
Rutgers Building Q, Mays Landing

Fri, Nov 17 - Fairbridge Inn, East Hanover

E278 
NEC ARTICLE 690, SOLAR PHOTOVOLTAIC SYSTEMS, PART ONE AND TWO - 2 evening sessions (6:30 pm - 9:00 pm)

Instructor: Brian Mitchell

Credit: electrical

Participants will become familiar with, interpret, and review the most significant elements of the National Electrical Code Article 690, related codes, standards and regulations, and safety for the inspector. The materials and methods for these systems are covered to enhance the performance of electrical subcode officials or electrical inspectors. This five hour seminar is comprised of 2 sessions, each 2.5 hour long, and is aimed at persons already licensed as an Electrical Subcode Official or Electrical Inspector. Participants have to attend both 2.5 hour evening sessions in order to obtain credit. 0.5 CEU

Mon, Nov 13 - Online - Go To Training

Mon, Nov 20 - Online - Go To Training

D278 ✈**NEC-IRC-UCC THE SUBCODE CONNECTION****Instructor: Dennis Pino, Nick Fabiano***Credit: building, electrical*

From plan review of concrete encased electrodes to the final electrical inspection checking energy efficient lamp counts, this seminar presents key code changes and bridges the transitional gaps of the NEC 2014, IRC 2015 and UCC. A truly comprehensive breakdown of the UCC assigned electrical subcode responsibilities regarding plan review and inspection of residential construction projects is presented. Existing rules and regulations for residential electrical installations such as solar, generators and elevator responsibilities are also reviewed in great detail. This seminar is presented in a high quality Power Point presentation with dynamic graphics, exclusive UCC agency driven icons and color coded procedural symbols. 0.5 CEU

Thurs, Oct 05 - Middlesex Cty Fire Academy, Sayreville

Thurs, Oct 12 - Fire-Rescue Station 221, Evesham

D296 🍷**NFPA 13 & 72 INCLUDING IBC-2015 CHAPTER 30 AS THEY RELATE TO ELEVATOR CODES****Instructor: NAESA***Credit: fire protection, elevator*

This seminar is a detailed and historical presentation of how NFPA 13 & 72 relate to ASME A17.1, IBC chapter 30- 2009-2015. The presentation details requirements for building installation of the elevator sprinklers, piping, initiation devices, shunt-trip and fire service access elevators (FSAE). NFPA 13 is the Standard for the Installation of Sprinkler Systems and NFPA 72 is the National Fire Alarm and Signaling Code. IBC is the International Building Code. 0.5 CEU

B703**RESIDENTIAL PLAN REVIEW USING A CHECKLIST/ IRC 2015****Instructor: Jack Boekhout Consulting, LLC***Credit: building*

A building inspector's job encompasses a variety of duties, including plan review, inspection and working with the public. One of the most important parts of that job is plan review. During this seminar, information is given to incorporate elements of plan review with additional hints and charts to improve the plan review process. Explanations for necessary code compliance for such things as foundations, framing, volume computations, grade plane etc., as well as a plan review checklist are provided. Using a checklist keeps the review moving and the reviewer focused. This prevents errors, items missed and additional cost of construction when the reviewer failed to note a violation that was subsequently installed in violation. The next benefit is the insurance (ISO) review. Towns that use a good checklist get higher marks and the residents benefit by a reduction in homeowners insurance premiums. 0.5 CEU

Tues, Oct 03 - Atlantic Cape Community College,

Rutgers Building Q, Mays Landing

Center, Lyndhurst

B786**SOILS, EARTHWORK AND FOUNDATIONS: A PRACTICAL APPROACH FOR BUILDING OFFICIALS BASED ON 2015 IBC AND IRC****Instructor: James Quigley, International Code Council***Credit: building*

This seminar is a bridge between the complex world of geotechnical engineering, foundation design, construction activities, and inspections dealing with soil conditions and building foundations. This course is intended to provide an understanding of the principals involved in geotechnical engineering and foundation design to help students better communicate with geotechnical and structural professionals. Case studies include reviewing sample soil reports and discussions of what to look for when soil reports are part of the plan review submittal. 0.5 CEU

Wed, Nov 08 - The Inn at Lambertville Station, Lambertville
 Fri, Dec 01 - Fire-Rescue Station 221, Evesham

A587**STATUTORY DUTIES OF THE SUBCODE AND CONSTRUCTION OFFICIAL****Instructor: James Foran***Credit: administrative*

This seminar is designed as a refresher for licensed Subcode and Construction Officials. Additionally, other inspectors will benefit from becoming more familiar with the duties and powers of the Subcode and Construction Official positions. The limiting factors of the Subcode and Construction Official's statutory power is also discussed. 0.5 CEU

Tues, Oct 10 - Fire-Rescue Station 221, Evesham
 Wed, Oct 25 - Best Western Plus Executive Inn, Fairfield
 Tues, Nov 14 - Rutgers EcoComplex, Bordentown

A606**THE ANNUAL PERMIT****Instructor: Richard Osworth***Credit: administrative*

Local officials are always looking for ways to streamline processes, and local companies are looking for ways to be more effective and efficient. However, the annual permit process is a concept that is overlooked and not necessarily seen as a potential savings to all concerned. This seminar takes the participants through the UCC Act and Regulations with both a historic and current presentation of the annual permit process. The presentation fully explains the concept of a construction permit, its origins in the law and how it has been amended over time. The seminar focuses on the annual permit process with a full explanation of the approval process, the inspection process, the training requirements and the facility manager's responsibilities. Participants will leave with a full understanding of the annual permit process including sample documents for potential clients. 0.5 CEU

Wed, Nov 01 - Holiday Inn, Clark

Wed, Nov 15 - Grand Hotel, Cape May

D185**THE HOTEL/MULTIPLE DWELLING CODE AND UFC RETROFIT PROVISIONS****Instructor: John Daniels***Credit: building, fire protection, hotel/multiple dwelling*

This seminar is designed to explain and identify the Uniform Fire Code Subchapter 4 Retrofit provisions as they relate to Hotels and Multiple Dwellings. The background, purpose and intent is discussed, identifying the minimum requirements within an existing structure, such as sprinklers, fire/carbon monoxide alarms, means of egress, vertical shafts and interior finish. Students will learn to recognize when and how to apply the minimum requirements of the Retrofit code. 0.5 CEU

B784
THE IMPORTANCE OF WALL BRACING AND CONTINUOUS LOAD PATH IN THE 2015 NJ CODE

Instructor: Simpson Strong-Tie

Credit: building

This seminar will equip students with an understanding of the wall bracing provisions in the new 2015 IRC code. Students will review and understand appropriate braced wall panel and braced wall line information on plans submitted for permit, a requirement in the new code. This information will also allow students to identify and inspect braced wall panels and continuous load path. Students will learn to identify common problem areas that are difficult to meet with the prescriptive code, including narrow garage door openings, window walls, and two-story balloon framed walls, and understand solutions for these problem areas. In addition, the situations that fall outside the prescriptive code by evaluating prefabricated shear wall solutions for those situations and the continuous load path provisions of the code that are directly related to wall bracing are discussed. 0.5 CEU

A581 **THE UNIFORM CONSTRUCTION CODE ACT****Instructor: Richard Osworth***Credit: administrative*

Building safety has been a major policy effort in New Jersey for decades. The Uniform Construction Code Act was passed in 1975 and was the first comprehensive building safety act in New Jersey. The implementation of the act began a movement to professionalize both the building industry, as well as municipal government's inspection staffs. This seminar presents the history of building safety through a presentation of the original act (what is in the law) and all of the subsequent amendments. The discussion addresses the legal underpinnings of all the regulations, codes and standards used in inspector's everyday work. This seminar is designed for new code officials and seasoned veterans, as it discusses the true meaning of law and the authority upon which the enforcement of a uniform construction code is based. 0.5 CEU
