- Presenter(s) resume(s)

Other

Continuing Education Seminars for Construction and Hotel and Multiple Dwelling Code Enforcement Officials and Technical Assistants**Online Seminar Presentation Statement**

Proposals should include an affirmative statement that they are able to be presented in an online synchronous format, given the fact that online programs have, by necessity, become the majority of our educational programs. If the proposal is not able to be presented online, that should also be prominently stated in the description and/or methods of presentations portions of the proposal.

Online presentations must include polls or tests as part of the presentation to ensure that attendees are absorbing the material and to ensure attentiveness. It is expected that the presenter(s) create at least 2 polls or tests for the morning portion of the presentation and at least 1 for the afternoon portion of the session. Instructors will be given access to our online platform prior to the session to create those items and to upload student materials.

I affirm, by my signature below, that I am able to present this seminar in an online synchronous format should the need arise to do so.
